

# KENKO POWERSLEEP™ MASK

## KEY FEATURES AND BENEFITS

- **Helps promote restful sleep and rested eyes, for better sleep and relaxation anywhere**
- **Light-blocking opaque weave prevents glare and eliminates light distraction**
- **Shaped-to-fit soft, breathable fabric makes it comfortable to wear for hours**
- **DynaFlux™ Magnetic Technology increases effectiveness of natural energy field**
- **Far-Infrared Technology for gentle warming and temperature regulation**
- **Negative Ion Technology produces the electrically-charged molecules found in calming natural environments**
- **Small, compact, lightweight and portable, it comes with its own Travel Pouch**

Slip on the PowerSleep Mask and you'll immediately notice how much more relaxed you feel. Then again, this is hardly surprising considering that Nikken has been a pioneer in advanced sleep innovation for over thirty years, helping thousands of people around the world benefit from a better quality of sleep.

Very few people get the right amount of sleep they need, despite the fact that inadequate or poor quality sleep has been linked to physical and mental problems including fatigue, stress, and even weight gain. But the PowerSleep Mask can help you address this, improving your quality of sleep and rest even while travelling.

Nikken's unique DynaFlux Technology, featuring a series of individual magnets strategically placed in polar opposition to each other, both intensifies and extends the coverage of the benefits of the magnetic flux. Added to this, ceramic-reflective fibres absorb energy from a number of sources — such as ambient temperature and body heat — then reflect it back as energy in the far-infrared portion of the spectrum as a gentle, calming warmth.

As a final, soothing touch, the minerals employed in our tourmaline fibres are a natural source of the negative ions that ensure forests and waterfalls are amongst nature's most relaxing and refreshing settings.

# KENKO POWERSLEEP™ MASK

## PRODUCT INFORMATION

### Item Codes

3015

### Featured Nikken Technology

DynaFlux Magnetic Technology, Nikken TriPhase® Technology (including Far-Infrared Technology and Negative Ion Technology)

### Gauss Strength per Magnet

800-1,000

### Dimensions

205mm x 100mm. Fully adjustable strap to fit all head sizes

### Materials Contained In Product

Microfibre, ceramic-reflective and tourmaline fibres, ferrite, elastic

Outer fabric: 100% Polyester (coated with Polyurethane)

Inner Fabric and filling: 100% Polyester (with Tourmaline mixed in and ceramic fibers)

Side that touches skin: 100% Polyester

Nickel free coating, 20mm (width) elastic band

### Recommended Use/ How to Use

Wear mask directly over eyes

### Caution

People who are in their first three months of pregnancy, or who have a pacemaker, health problem or electronic device (either implanted or external) should consult their doctor or the manufacturer of the device before using magnetic products. Do not place in direct contact or close to magnetically sensitive items, such as watches, video and audio tapes, computer discs, credit cards and portable electronic equipment.

### Care Instructions

Hand wash in cold water with a mild detergent. Air dry at room temperature indoors. No ironing or twisting.
