

# Naturest® Kenkopad®

## *Key features and benefits*

- Transforms a regular mattress into an environment more conducive to healthier sleep
- Cocooning revolutionary RAM™ (radial-axis magnetism) Technology
- Gradient-density nodules provide a gentle massage-like stimulation
- Latex foundation wicks away moisture and promotes improved ventilation

A proper amount of time spent in deep sleep is crucial as it's only in the third and fourth stages of sleep when muscles relax, blood pressure drops, breathing slows, and increased tissue growth and repair occurs. It's here, too, when hormones are released and energy restored.

You only have to lie down on a Naturest Kenkopad to begin to understand why it can help you benefit from a more relaxing, restful sleep. Several sleep technologies have unsuccessfully tried to replicate the restful, recharging effects of a massage, but only the specially moulded, gradient-density nodules of the Naturest Kenkopad give you the right mix of firmness and yield, providing a gentle stimulation that makes your body more receptive to relaxation.

Your comfort is further enhanced by the way the latex foundation moulds to your body's contours, relieving discomfort on its pressure points. This latex foundation also dissipates moisture and, together with the natural-fibre cover, promotes improved ventilation. In a final all-important touch, Nikken's exclusive RAM (radial-axis magnetism) Technology enfolds you in a series of overlapping, three-dimensional magnetic fields enhancing the Earth's natural energy.

As the name suggests, simply place the Kenkopad on top of your regular mattress to transform it into the perfect environment for a healthier, more refreshing sleep.

# Naturest® Kenkopad®

## Product Information

### Item Codes and Dimensions

Code	Size (cm)
1110	74x185
1111	90x190
1112	135x190
1113	150x200

Naturest Sleep Solution (containing Naturest Kenkopad, KenkoDream® Quilt, Naturest Pillow)

**Code**  
16505

**Featured Nikken Technology**  
Magnetic Technology

**Gauss Strength** – 3,200

### Materials Contained In Product

Synthetic latex: 38%; natural latex: 34%; graphite: 24%; wool batting: 4%  
Magnetic Discs: 13/19/26 per pad depending on size, providing 3,200 gauss strength per Naturest Kenkopad  
Outer Cover – Natural fibres; a mix of organic cotton and bamboo

Latex's natural, open cell structure provides a self-ventilating airing system, while its resistance to heat and moisture build-up ensures it remains dry.

Bamboo fibre's unusual ability to breathe means it both dissipates moisture and keeps cool in summer, warm in winter. It also possesses natural anti-bacterial qualities (such as a bacteriostasis bio agent).

### How to Use

Place the Naturest Kenkopad on top of your regular mattress with the nodules facing upwards. Make sure it is placed so that the tag and zipper are at the top where your head will rest.

### Care Instructions

Spot clean only, using mild detergent and warm water. Do not oversaturate. Air-dry at room temperature away from sunlight or excessive heat. If folding the Naturest Kenkopad is necessary, fold with the flat side outward. Do not attempt to fold with the nodules facing out.
